Co-funded by the  
 Erasmus+ Programme  
 of the European Union

## Newsletter

issue N° 3, 2020

### THE PROJECT

The Erasmus+ project Education for Zero Waste and Circular Economy started at the end of 2018 to fill a gap in Vocational Education and Training and create a new training course focusing on Waste minimization and Circular Economy. The international consortium of ten partners from nine European countries, under the coordination of Developmental Center of Thessaly (AKETH-DCT) from Greece, intends to produce an interactive platform, comprising a Knowledge Hub, an Online Course and a Diagnosis Tool.

### THE ONLINE MEETING

An Online Project Meeting was held on the 29th of May. The meeting was held according to the suggestions of the Greek National Agency and the restrictions applied due to the pandemic of COVID-19. The partners were able to discuss the updates of the Intellectual Outputs and more specifically the Diagnosis Tool and organize the next steps of the project in its final phase.

### COMING SOON

Our partnership will participate in the Virtual Higher Education Summit 2020 (#HES2020) that will be held from 31 August to 2 September 2020. The international event addresses the question "How can we assure quality and transformative learning for sustainable development?" and is co-organized by the COPERNICUS Alliance, saguf, td-net, the University of Bern, and the University of Lausanne.

### INTELLECTUAL OUTPUTS

#### THE ONLINE TRAINING COURSE

The English version of the online training course is ready and pilot tests have been completed. The EduZWaCE Manager and EduZWaCE Worker online training courses are now ready and very soon available in all partners' languages.

Check our Online EduZWaCE Course at : [lms.eduzwace.eu/](http://lms.eduzwace.eu/)  
 And all of our unit videos in our YouTube channel: @EduZWaCE Project

#### THE DIAGNOSIS TOOL

The EduZWaCE Diagnosis Tool is considered to be a useful self-assessment tool for companies (in particular SMEs) that will help them to investigate opportunities for circular economy solutions in their specific context.

The structure and offline version of the Diagnosis Tool is ready while the online version of the tool will be made available soon in the Collaborative Section of the Platform. It is a free tool to be used by companies and circular economy experts. Apart from the Platform, the Diagnosis Tool is closely linked with the other intellectual outputs.

The online version will be available at:  
[eduzwace.eu/index.php/collaborative-section/](http://eduzwace.eu/index.php/collaborative-section/)

#### Eduzwace Project

	EduZWaCE Manager - Learning Unit 1 Eduzwace Project		EduZWaCE Worker - Learning Unit 1 Eduzwace Project
	EduZWaCE Manager - Learning Unit 2 Eduzwace Project		EduZWaCE Worker - Learning Unit 2 Eduzwace Project
	EduZWaCE Manager - Learning Unit 3 Eduzwace Project		EduZWaCE Worker - Learning Unit 3 Eduzwace Project
	EduZWaCE Manager - Learning Unit 4 Eduzwace Project		EduZWaCE Worker - Learning Unit 4 Eduzwace Project
	EduZWaCE Manager - Learning Unit 5 Eduzwace Project		EduZWaCE Worker - Learning Unit 5 Eduzwace Project

### THE KNOWLEDGE HUB

Our interactive resource center is recently updated with more than 140 resources of 18 different types (scientific and "grey" literature, books, good practices, case studies, presentations, videos, software, methods, tools and other resources) in English but also in all partners' languages.

It gathers useful information for Vocational Education and Training teachers and professionals from companies who seek for knowledge and inspiration on zero waste and circular economy.
