

Education for Zero Waste and Circular Economy

8

PRESENTER:
Glavič Peter, Prof Emeritus

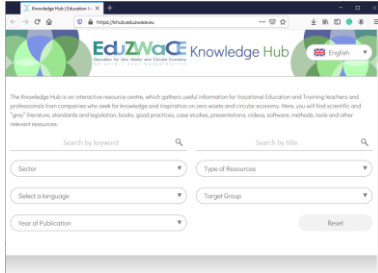

- EduZWaCE is an Erasmus+ project
- Fill a gap in Vocational Education and Training
- Create a new training course focusing on waste minimization and circular economy
- Develop interdisciplinary skills needed for new jobs in the area
- An interactive platform, comprising a Knowledge Hub, an Online Course and a Diagnosis Tool
- 2 online courses are addressing the training material on zero waste and circular economy focused on two profiles: manager and worker

Diagnosis Tool

Online Platform

Knowledge Hub

Online Platform

Online Courses

Diagnosis Tool

INTELLECTUAL OUTPUTS

A user-friendly, open access collection of existing projects, papers, databases and other resources in all partner languages.

A virtual learning and collaboration environment comprising all the outputs.

Online open courses on circular design, products' life cycle, more resource efficient production methods and new business models, aiming at closing, narrowing and slowing resource loops

An online tool to investigate internal and external opportunities for circular economy in participating organizations and others..
